January 14th, 2013

Dear Long Range Planning Committee:

I am writing in support of the proposed funding for the Town of Ryegate's DNRC Reclamation and Development Grant application to be used at the abandoned Ryegate Conoco station on Highway 12.

The Town is very concerned about the impacted groundwater that threatens local water sources, the Ryegate town well intake, and the Musselshell River. The Town would also like to see the property rehabilitated so it can be utilized and returned to the city/county tax rolls.

Thank you for your consideration of our application.

Sincerely,

Patti Bruner

Mayor Patti Bruner
Town of Ryegate
